Whispers from The Brighter World

Wednesday, June 24, 2015 — 10:00 a.m.

Offer your heart to the divine presence, that which delights you beyond words. This transmission is intended for the good of all our abhyasis who have the privilege of receiving this reading — isn't this the reason it is given! Such a manna of messages is not received in vain. It is a true asset for our Mission, and time will confirm this statement, you can be sure. We will look after it. The Mission's expansion is programmed, and we are preparing the future while supporting the work of the current Master. He has become perfectly integrated, and he will do great things. He is a builder, in the broad sense of the term. Many projects will be implemented towards a wider expansion around the world. Ashrams will spring up here and there. The spirit of the Mission will naturally integrate itself into some cultures, as it is not domineering and it respects the tendencies and customs of all. Only a call of the heart is crucial in this matter. It is up to one and all to follow their path according to their own deep aspirations.

"An incarnation is short in the face of the Eternal, and it provides opportunities which the aspirant may seize to make the most of the sadhana. A life is complex. Human beings are always offered options, and it is incumbent upon them to make the best choices, especially with regard to their spiritual evolution. This remains a sustainable asset beyond the current life, which is carried over and develops with time. May all our brothers and sisters realise the opportunity offered to them to truly progress towards the goal, under our customary encouragement and blessings."
