Whispers from The Brighter World

Monday, June 29, 2015 — 10:00 a.m.

Be at peace. We help you as best as possible on this journey — one in which nothing is simple for you, contrary to appearances. The love that dwells in you is your life force, that which propels you towards our hearts through these daily contacts. As we have said repeatedly, this manna of messages is not given in vain. In the future it will become a characteristic feature of our Mission. All of us here are attentive to your person — our scribe has already done considerable work and she does not seem tired of receiving us. So many of our abhyasis are nourished by our comments; for them, these are an additional help associated with their practice and their commitment towards the living Master. This commitment is crucial; he is the power that carries to great heights the action of the entire hierarchy which is attentive to all on this spiritual path — at all levels. We are monitoring the expansion of this path around the world and preparing the future so that everything that needs to happen will naturally take place.

"Our dear Kamlesh is an enlightened being. He will manage to do whatever is needed to meet our expectations. The heart of the Mission is in India; it is there that the Mission originates and there that the reality of the Mission will be confirmed after many upheavals have taken place in the world. May their trust in us, in their Master Kamlesh, carry the faith of each of our brothers and sisters on this brave path of spiritual realisation.

"Blessings to all, for the best that is possible."
