Whispers from The Brighter World

Thursday, July 30, 2015 — 10:00 a.m.

Be at peace; relish these unique moments when we can communicate like this. Do you truly realise the grace it represents! There is no deception in this; we are truly giving you these messages. They are not commonplace, you can all be sure of that. They carry our energies more than it may seem, and they accomplish in the hearts of our readers the work that is necessary for this delightful osmosis with our hearts. Time will lend the messages all due importance — historically, it has always been so when teachings emanating from a divine source have taken on considerable importance and become the foundations of diverse spiritual movements. We wish for the well-being of our abhyasis. Such means have always been given to the Great Masters of the past; our means are slightly different, but the results are the same. From these writings emanate the teachings and energy of the united Masters, who have all been in favour of this unprecedented transmission for a long time. The current Master benefits from them, as his predecessor did with gratitude. Our dear and great Parthasarathi, in his wisdom, recognised in these messages a necessary complement to what already existed. Time clarifies things and always lends importance to what is necessary here below. These writings have already helped a great deal and they will continue to do so, you can all be sure. The way of Sahaj Marg will prevail over time for good reason, and this makes us happy here — we who have been doing our best for the welfare of all.

"Endless blessings."
