Whispers from The Brighter World

Thursday, September 3, 2015 — 10:00 a.m.

The visit of our dear Kamlesh illuminates the Montpellier ashram, which is already charged and blessed. We are delighted by his stay; it gives a breath and an additional impulse capable of motivating all our brothers and sisters in this very special and effective approach. In this, the heart sets no limits on itself and commits itself according to a deep call, when the soul goes into raptures and surrenders to the spiritual Master. The principle is simple and will be more and more appreciated for its soundness and effectiveness. It is not easy to assess the road travelled, but rest assured, Sahaj Marg is productive of the best that can be in this area.

"May this seminar conclude very well, under our special blessings for all."
