Beloved Master

Revered Babuji Maharaj

Whispers from The Brighter World

Saturday, September 5, 2015 — 10:00 a.m.

The Sahaj Marg Mission is growing; its influence is expanding in the world and winning over a space — the most beautiful that can be — for a deep and sincere call of the heart. All the beings who are following us on this path are responding to an absolute necessity to truly advance towards the divine source, one that is within their reach. The living spiritual Master is the sacred vector; he relays the divine energy as we provide it to him. The principle of this relay makes it unique. Our way is blessed with a method, the full scope of which the abhyasi does not yet realise. One would need to have extreme sensitivity; this is refined with time and through rigorous practice. One day the divine goal will be achieved and then the supreme happiness will be there for the fortunate one. Let us hope that there will be more and more of them; our action is geared towards this.

"It is up to the grace of the united Masters, who are attentive to each of you. Endless blessings."
