Whispers from The Brighter World

Thursday, September 10, 2015 — 9:00 a.m.

Everything in our Mission has its raison d'être. These writings are a precious asset for all. They exist, and they will defy time. The future will bring about many changes; that which is important will be highlighted and for good reason. Sahaj Marg has become a vast enterprise. It is being structured and is preparing to grow even further. Many beings are involved and serving this noble cause. They can be sure that they will not regret it. The result of these actions is a real asset that benefits one and all according to their appeal. The entire hierarchy wishes for this outcome, namely to produce the best and the most enduring of what can be, under our ceaseless blessings."
