Whispers from The Brighter World

Sunday, September 13, 2015 — 10:00 a.m.

The Sahaj Marg Mission will surprise people one day by its diversity of action. The present incumbent Master will promote its development on many levels. Everything is evolving in this world, hence it will be necessary to adapt to new times by promoting the approach of this method, as has already been planned. In the Mission, everything is changing and must evolve in the right direction in order to facilitate the practice of one and all and the expansion of this extraordinary way throughout the world.

"The work concerning the children should indeed be kept; this method can help many of them develop their sense of observation, among other things — a sense that currently appears to be losing ground. One should not neglect anything that can work in this direction. What matters is the practice and the profound motivation of all to achieve the best; a call is always heard, as we have said many a time. It is up to each one to be committed accordingly.

"Our help and blessings to all."
