Whispers from The Brighter World

Friday, September 18, 2015 — 10:00 a.m.

My dear daughter, this day is not important to you, but it is to us. This long journey of a life has led us to make this choice; our scribe has never failed. To be carried by love in this manner embellishes life and gives it a special aura. We cannot help being touched by this; it is a fact that will remain unique in our Mission. These thousands of accumulated messages are a valuable asset that will remain a reference in the future. Thus everything will have been said. Our successor will benefit from this special contribution, and it will inspire him as needed. He, personally, will be enlightened more and more, as has been the case since his appointment.

"Blessed be this birth anniversary of our beloved scribe, and our best to this entire Sahaj Marg Mission."
