Whispers from The Brighter World

Monday, September 28, 2015 — 10:00 a.m.

This first seminar honouring the birth anniversary of our dearest Kamlesh is a much more important milestone on his journey than he imagines. It will represent a significant landmark in the definitive establishment of this high place. This Mission has no equal in the way it will mark present times for the benefit of the future. All future generations will benefit from it through an easier approach whose results are convincing. Our abhyasis are becoming refined over years of practice; we can determine this from the results achieved.

"May this day, so special for our great and blessed son, meet all his expectations — such is our dearest wish. We carry him with so much love. Does he truly realise as yet the scope of his action, of that which awaits him? It does not quite seem so. No matter, one thing at a time. Everything will take place as planned for the good of one and all — including his dearest person, of course. All our best wishes for this first and very happy birth anniversary, surrounded by the alliance of the entire hierarchy.

"With all our love, dearest Kamlesh."
