Whispers from The Brighter World

Tuesday, November 3, 2015 — 10:00 a.m.

As the saying goes, it is hope that makes us live; one should never despair. Life sometimes holds surprises, in the best sense of the word. Despair is not constructive; everything has its raison d'être and is justified with time. It is not easy to admit the necessity of ordeals, to reason with oneself when facing them. Everything that lives on Earth is subjected to the same laws, and no kingdom is spared — such are the divine laws. Humans often struggle to understand the requirements of karma. How could they understand, being overwhelmed by this higher power that does not bend. Acceptance allows one to grow in wisdom and, over time, helps one understand the significance of all things. Why must one endure so much, suffering both physically and in one's heart! Every life is one aspect of this mysterious karma, about which any well-informed person wonders. Answers are within, in the depths of one's memory, which no human being can really understand; nor can one grasp the true reason for the tests.

"Advancing with faith and love is the only option available to humans; thus do they acquire a certain highly sought-after wisdom, and that for good reason. We help our brothers and sisters as much as possible, to the extent of our capabilities; their personal process is decisive for the continuation of their journey. Nothing happens in vain, you can be sure. Everyone is helped as needed, in order that they may achieve the best that is possible — namely, the real purpose of an incarnation.

"Blessings."
