Whispers from The Brighter World

Friday, November 13, 2015 — 10:00 a.m.

These contacts are part and parcel of your life, and they are also necessary for us. They have existed for so many years. They will be remembered and remain important for many of our brothers and sisters. They are a precious asset for all of us who are united heart to heart with all of our abhyasis, brought together under the guidance of the spiritual Master, who is chosen and carried by our care on this difficult journey. Nothing is ever easy here below; incessant heaviness delays the evolution of each of the incarnate beings subjected to these laws that are essential in the current state of knowledge and in the very principle of life.

"Incarnations repeat themselves, facilitating a programmed evolution. These principles are ignored by humans. A day will come when knowledge will unfold to the greatest number of people, who will have reached a level sufficient for integrating knowledge in its purest form. It will take time to achieve a level of vibration capable of generating a society that is perfect, or at least one that is in keeping with divine principles. To some extent these principles are respected, but much remains to be done to reach the goal. There lies the main focus of our concerted actions with those who have been chosen. The ones who are fully committed are working in the direction of the evolutionary process that continually operates in that respect for the good of all humanity, since all living kingdoms are subjected to this unavoidable process. One can say that one day the divine purpose will be achieved.

"Endless blessings to all."
