Whispers from The Brighter World

Wednesday, November 25, 2015 — 10:00 a.m.

Dive into this ocean of love where your soul is delighted; surrender is required for this. Your faith in us carries you and works wonders. You receive these messages with your heart and not your mind, and this is what makes the difference. They will remain one of a kind, let us emphasise it once again. They will leave their mark on these times, and in the future they will become one of the references in this Sahaj Marg way. Repetition is necessary in this area as elsewhere; it is the driving force of life. The hierarchy of Masters is monitoring the expansion of this way very carefully. We are not insensitive to the Mission's difficulties on the material plane. We are doing our best to address them, particularly in some situations.

"We are thinking of Hyderabad, this future high place of Sahaj Marg, which will become in its own way the pearl of the Mission. It is important to focus on this edifice that is close to our hearts. The future will highlight the many extraordinary aspects that characterise it. What must be will be; nothing is ever easy here below. So it is with humanity, and this is unlikely to change. Everything happens slowly here below — such are the laws in the current era. The deep motivation of abhyasis does the rest; persevering and keeping faith in spite of everything is a valuable asset. The future era will bring another dimension to what characterises life on Earth today. To the divine powers, nothing is impossible.

"Blessings to all."
