Beloved Master

Revered Babuji Maharaj

Whispers from The Brighter World

Sunday, December 27, 2015 — 10:00 a.m.

You offer your heart above all, and you receive our remarks, while being carried by this unfailing love which lends a special vibration to these writings. Many of our brothers and sisters receive them accordingly, each in their own manner. This allows the diffusion of a very subtle energy whose action is redeeming according to each person's call. Like our remarks, it is the materialisation of the Spirit, which can be found in these pages written day after day. They will remain a clear testimony important for our action in this world. This world is disconcerting in many respects, but it allows us to express ourselves for a long time. These messages must be preserved; they are unique among their kind, being carried by a story, an extraordinary love, as has always existed in this world in such circumstances.

"An ardent appeal of a soul is always heard; we answer it in our own manner by working for its good and that of our Mission. The egregore of the Mission is growing and will soon reach the summit of heaven, a place where we are already developing the future of this Mission. Like the greatest spiritual movements, it began in a small way and will one day eventually reach its culmination, you can be sure. The united Masters, as well as the faithful servants of Sahaj Marg who have joined us here, are more motivated than ever. Faith and courage to all, under our blessings."
