Whispers from The Brighter World

Friday, February 12, 2016 — 10:00 a.m.

This celebration day is always very special. A very powerful transmission occurs, unifying the hearts of all our aspirants around the world in a very special manner — one that leaves, here below, the mark of the Grand Master of this Sahaj Marg Mission. It is unique, and can be recognised by its vibration, which does not leave any doubt about the source from which it originates. The power of the Divine can work real miracles when it operates through such Great Beings who have left their mark on this world in the most noble manner. Such a celebration — like each one of those that are held in our way — can work wonders; we are able to witness the effects every year. These very special days deserve all possible attention and the respect that is called for here. Increasingly, they will leave their mark and be celebrated with all the fervour that they can inspire. Blessed are our brothers and sisters who are truly involved in these celebrations; they benefit greatly from them. Each person is advancing in his or her own manner. We cannot force anything, only transmit a very special energy whereby grace operates in its own manner, according to one's call. May each of our abhyasis be truly motivated, with great love, regarding such special seminars. They will not regret it when the time of assessment has come. We are especially near to our dear and great son Kamlesh.

"Very special blessings to all."
