Whispers from The Brighter World

Sunday, February 21, 2016 — 10:00 a.m.

He whom you call 'Babuji' is there, attentive to your dear person. Why wouldn't we say it this way? All these years of fervour and intense communion have created a space of peace and unique love that over time will leave a true reference within our Mission. All these words are not in vain; they have their purpose and they will be greatly appreciated in the future when the world has reverted to more wisdom and spiritual investment. These writings will not be forgotten; they will be a valuable asset for Sahaj Marg, a real benefit. Their vibration will be felt and appreciated according to its true value.

"The human being is advancing very slowly. This is an evolution that has been planned for a long time. It will free the world of taboos, of an ignorance that has long been maintained for the wrong reasons. The essential thing is to lay solid foundations in compliance with laws that do not depart from the divine will, which is so essential for the benefit of all life on Earth. Sahaj Marg is advancing in the direction of what is good in order to build a better world, motivated by the best of intentions. To be perfectly involved in active life — material life — is good, and it is a true sign of wisdom to develop, in parallel, a spiritual space necessary to accommodate the soul.

"May our brothers and sisters become aware of this occurrence — the progression of the subtle being towards the best that is possible, with the help of our ceaseless action."
