Whispers from The Brighter World

Sunday, March 6, 2016 — 10:00 a.m.

These old messages are indeed of an entirely different essence. This series of messages presented in poetic form is surely interesting, and it would be good in the future to share these messages with abhyasis interested in such a presentation, if our dear Master Kamlesh so decides. Time lends things their true value, and the rereading of these messages will touch many beings. In this, love remains the keyword.

"These very special concepts of surrender and commitment of the heart and mind remain paramount. The Mission is getting stronger on its sacred foundations. Being blessed by the Hierarchy, it is advancing towards an unprecedented expansion; it will leave its mark on the world, you can be sure. Much remains to be done to achieve the desired level on the material and spiritual planes. Nothing is ever easy. Where would the challenge lie if such were not the case? The Mission will have to adapt to the coming changes and will emerge stronger and well established in the world. The vision of the future is very clear, and the divine plans provide for an action that is already foreseen and decisive for all humanity. India will spread its wings, and one day it will again become, as in ancient times, one of the world's beacons. May all our brothers and sisters become stronger in their spiritual quest and thus contribute to the great expansion of this Mission.

"Blessings to all."

Babuji Maharaj
