Whispers from The Brighter World

Monday, March 14, 2016 — 10:00 a.m.

Dive into this ocean of love in which everything is forgotten. As you know, these words are the prelude to a wonderful contact where, every day, we can express ourselves. The movement of life here below is such that it is good to set aside a moment of inner peace conducive to the expansion of the soul. Fervour is innate, but it grows stronger over time as the result of a continuous action that leads to serenity. A fervent soul finds its way, one that satisfies it at the highest level of consciousness. A deep and sincere appeal is always heard — how could it be otherwise? The divine power manifests in all aspects of life, even where least expected. An incarnation fulfils specific plans, which, by and large, are rarely as initially desired. Human beings plan their lives, and what does God do? 'He laughs.' Following a spiritual way allows one to proceed on a journey capable of clarifying things and, to some extent, answering the questions one has. Surrender and interiorisation lead to an awareness that is sufficient to keep a person from being held back in his or her deep aspiration for the Divine. Sahaj Marg is a sure means of progressing. It can take time to understand it and fully adhere to the rules and teachings that define it. Within each person lies the marvel, the rare pearl that asks only to be revealed; meditation within the framework of our way helps considerably.

"To all, the best. We are seeing to it."
