Whispers from The Brighter World
A Fourth Revelation

Wednesday, April 5, 2000 - 10:00 a.m.

We cannot always tell you amazing things. You have reached the stage of regarding our exchanges as a normal fact. You should be satisfied with the fact that this communication exists and that we give you information, even if it remains within a limited framework.

"The purpose of what can possibly be said is to accompany work that, otherwise, you would not be really aware of. Many would love to live what you are living, on the spiritual level at least.

"You should make do with what we tell you, you are a privileged person.

"Even if by nature you were rather inclined to be on the go, out in the world, we expect of you another action which does not require any physical effort.

"There is a great lesson you must learn from this incarnation: withdrawal into oneself in terms of interiorisation and utilisation of psychic forces – a vast programme, which humans do not know much about, but which we use as we see fit. Did you not say that it takes all sorts to make a world?"
