Whispers from The Brighter World

Friday, April 1, 2016 — 10:00 a.m.

Sahaj Marg wins over hearts slowly but surely. It is taking its place in time and space in countries where one could not have imagined it. Fervent souls see themselves in it; its simplicity largely conceals a real effectiveness. Our faithful abhyasis are convinced of its importance and fully adhere to its discreet and effective action.

India has given birth to Great Beings — highly inspired spiritual Masters who have, for a very long period of time, influenced many people in this world. Major changes will occur in the future; this country will live on, continuing on its course while helping many brothers and sisters. This planet has undergone substantial upheavals in the distant past, resulting in its present configuration. In the future, it will change in many respects, with a view to an adaptation more conducive to its evolution. Today's human being foreshadows the humans of tomorrow. A significant vibratory change will bring about transformations that cannot be imagined today. Sahaj Marg will continue on its path. Given to humans in the present era, it symbolises an openness of spirit and a true effectiveness. It has been well established here below by certain Masters, each of whom has had a very special mission. Sahaj Marg will unfurl its power of action in this world, and it will do so for a long time, you can be sure. It is up to all of you to work in full awareness of its major assets, capable of leaving a definitive mark on this incarnation and the subsequent steps of each of your journeys, under our blessings.
