Whispers from The Brighter World

Saturday, May 21, 2016 — 10.00 a.m.

Such a heart connection lends these writings a very special vibration; sensitive beings perceive this vibration and are nourished by it on a daily basis. Repetition is necessary, as we have often said. Without it what would become of this world and all that contributes to its development! Life is movement and transformation in the process of developing a different world where the best could be accomplished. The current era is one in which unprecedented profound transformations will occur. Humankind must develop sensitive points that are capable of leading humans to the next level. While constantly changing, its innermost nature is evolving without appearing to do so. Spirituality as practised in this system is a valuable asset for accelerating this process that is beyond human awareness.

Divine laws manifest in their own manner, very subtly, and yet their action is astounding. We witness their effects every day and are grateful for their indescribable benefits. Sahaj Marg in its own manner is involved in this planned evolution. Everything is taking place appropriately. Karmic laws manifest at all levels; they are inescapable. Life offers many opportunities. It's up to each and every one to make the most of them.

Blessings to all.
