Whispers from The Brighter World

Friday, April 15, 2016 — 10:00 am

These writings are the expression of an extraordinary love. Their number and their vibratory intensity are their distinguishing features. They are meant to touch the hearts of our brothers and sisters and accompany them throughout a spiritual journey that is suited to the new era. The present is being lived, and the future is being prepared; this preparation is accomplished here for the good of the greatest number. This Sahaj Marg Mission operates in its own manner; it is leaving its mark over time and will remain one of the determining factors in the evolution of beings. Our vision of the future world enables us to say this. Many things will change; aspiration for the Divine will greatly increase, fostering an unprecedented expansion of human consciousness. A total transformation will be required in order for humanity to reach the desired level.

Many souls aspire to the Divine without being able to act as needed. The evolution of beings goes through various stages in the process of transformation; some stages are more favourable than others. Balance is nonetheless created, leading to positive results that are in line with divine plans. The era of the future will be completely different and is being prepared. Sahaj Marg will hold a special place in that future, as its action will unfold through people's hearts for the good of all. Thus is achieved that which must be realised; the divine will manifests according to its own laws.

Blessings to all.
