Whispers from The Brighter World

Thursday, April 21, 2016 — 10:00 a.m.

Rejoin us in this space of peace and love where your soul aspires to resume this extraordinary contact every day. It is not commonplace, let alone understood by all; the time will come when there will be enough open-mindedness for these exchanges to be accepted and of benefit to all our abhyasis. Moving forward is important. The work being done in our way is not ordinary, and its action, although sometimes beyond the understanding of our aspirants, operates at subtle levels that are crucial for the advancement of all. There lies the goal, the reason for this path of the heart; its effects are abstract but it is truly active and satisfying in every respect.

Initially the Masters did not imagine such a winning over of people's hearts. Nonetheless, it fully meets the expectations of the alliance that had decided upon this action for the good of the greatest number — and it is just the beginning. Precedents in history show that certain paths have also started on a small scale and then gone on to win over the greatest number of dedicated participants. Everything has its raison d'être; times are changing, and the profound aspirations of various people result in new approaches that can enlighten them even more about the underlying reasons for a spiritual path whose action is different. Many souls are awakening to knowledge, and this is only the beginning. More and more, the human being will seek to go deeper into the mystery of God, the Creator of all things.

Endless blessings to all.
