Whispers from The Brighter World

Friday, April 22, 2016 — 10:00 a.m.

Here you find the peace, the love, that carries you every day towards our hearts — hearts that are attentive to the Mission and to our dear scribe. Do not feel embarrassed by these comments. So many years of contact have created a very special bond, one that is — shall we say — unique in its genre and of benefit to the entire Mission. We particularly surround our dearest Kamlesh with all our heart. It is not always easy for him to cope with the various difficulties generated by the Mission. They are numerous, and they only add to the spiritual work, whose scope is surprising in its effects. This action pertains to a special state maintained by the power of the united Masters — we who are especially attentive to him, in order for his action to spread broadly across this way of the heart that is so special and active in the results it produces.

One day, the divine goal will be attained — such is our enduring wish for all who trust in us and follow this extraordinary path. All of you can believe that it will leave its mark on these times, adorning them with a beautiful aura. Nothing is useless in a process like this, one in which action and surrender crown the efforts of each individual. One and all benefit from the effects of grace. Over the course of days, it spreads with utmost discretion in the silence of the heart, where it is called upon. May all become increasingly committed and make the very most of a work such as this — one that has been blessed by the gods.

Blessings and courage to all, in the face of this unprecedented saga.
