Whispers from The Brighter World

Wednesday, July 27, 2016 — 10:00 a.m.

This ritual has become sacred in some way: a page is written under our dictation with these words emanating from a source that is divinely inspired. This manna of messages is providential; let us reiterate that these writings will have to be kept as a treasure. Our dear Kamlesh will conclude this action, which is desired by the gods, by making a few changes in keeping with present times. Thereafter, the responsible commitment of all our dear abhyasis will see that this unprecedented spiritual movement lives on over time. That which does not seem obvious today will become so in due time, that which must be will be; on this point we can say that the Sahaj Marg path will one day reach its apogee by taking a choice place in this domain that is very special.

May all become aware of that which is uniquely offered to them and enjoy it fully while there is time. To each of our aspirants — to all — the best ever under our special action.
