Whispers from The Brighter World

Monday, June 6, 2016 — 10:00 a.m.

Everything on Earth is eternally beginning anew; all kingdoms existing here on Earth are subjected to this principle in one way or another — they recur indefinitely. Human beings reincarnate; even if this fact is still far too hidden, its action is immutable and so important and decisive for the destiny of each person. From one lifetime to the next, values are transmitted and are a significant asset for the progress of the being who is in search of a planned spiritual elevation.

We have already said so often that following the way of Sahaj Marg saves valuable time. Its action, although simple, takes place where needed in order to achieve the best results. We can only rejoice in this, given the state of humanity today. Everything could progress faster, yet this would require making the right decisions and following a path that leads to satisfactory results. We are not criticising in any way, as nothing is perfect, but many efforts could be made that would in some way save this suffering humanity. We help humankind as best we can, you can be sure of that, but the work is enormous. One day a general awareness will come about and convince the whole of humanity to work for the good.

Special blessings to all.

Babuji Maharaj
