Whispers from The Brighter World

Sunday, August 14, 2016 — 10:00 a.m.

Open your heart to the transcendence of the Spirit; it carries you on a daily basis, thus establishing this extraordinary contact that exists well beyond a simple channelled communication. Your role is not insignificant. It is unique, one might say, and the future will confirm this statement. The perception of phenomena will become more accessible to all, and thus a broadening of consciousness will occur. These messages will remain a very valuable asset in our Mission. They will form the basis of a teaching that is unique among its kind, and people will seek the special emanation they provide. The following will be recognised and sought after: a comprehensive evolution of humankind, one that will trigger many situations and events that are currently beyond human understanding. The time of stagnation will have passed. In this process, we are in a certain way preparing for it, according to the divine plans. Trust and surrender will be needed when such times come. Once the transition period is over, all will become clearer to human beings, and very satisfying.

May grace touch the hearts of all our brothers and sisters — such is our wish.
