Beloved Master

Revered Babuji Maharaj

Whispers from The Brighter World

Tuesday, August 30, 2016 — 10:00 a.m.

The capturing of these messages rests on very special ties of the heart, hence the importance and vibrational strength of these writings. All their subtlety will be brought to light in the future. They are nonetheless currently operating for the good of all who read them. Every era in history brings about, in broad outline, that which is suitable for the evolution of beings who are in search of the Divine. A strong call makes itself heard amid all these disturbances that are so harmful to humans. We acknowledge such calls and make sure to answer them in our own manner. Each of the Sahaj Marg Masters has his own personality and means of action. The living Master works with the means given to him, and much more than he thinks. This is how it is.

May all be blessed and strengthened.
