Whispers from The Brighter World

Wednesday, August 31, 2016 — 10:00 a.m.

To see only the beautiful, only the good, is a strength; negative thoughts are not conducive to the spiritual development of our abhyasis. Life follows its course — it is not always to everyone's taste, but an incarnation has its reason for being. The school of life is not easy. Accepting it and doing one's best saves valuable time. These comments may sound rather banal, yet it is good to gain this form of wisdom, as it fosters significant evolution. A well-followed spiritual practice broadens future prospects and lessens their negative aspects. Sahaj Marg does not work so-called miracles, but its action generates results whose full importance becomes clear over time. It's up to one and all to be committed, to make their inner resources as fruitful as possible. Time allows a person to better understand the reason for many events.

To all, the very best that can be, namely wisdom and discernment, under our ceaseless blessings.
