Whispers from The Brighter World

Friday, June 10, 2016 — 10:00 a.m.

Enter into the silence, where the soul is enraptured. It is there that the ritual takes place, allowing you to tune into us at the highest level possible. So many years of contact have resulted in these unparalleled writings. They emanate from the world of the "Spirit", coming from the realm of the united Masters. Their love for this Mission can only grow. In accordance with the Mission's expansion in the world, this love touches hearts in its own manner and then the best can be fulfilled. It can take time to understand the need to act with perseverance and faith in this unusual commitment. The great mystics of the past were not necessarily planning for this action, for the journey on a spiritual path such as they have followed. Many of their names live on. They are references, incomparable models, and so will they always be.

God's ways cannot be circumvented; they capture hearts that are in need and yearning for an extraordinary path. Sahaj Marg is such a path. The practice touches on the most sensitive points, those that connect the heart to the sovereign spirit so that the best can be accomplished — you can be sure of that. This method will continue to astonish people; it still holds surprises, whose effects will be brought to light by the current Master. Our dear Kamlesh is endowed with our powers, and he is surely using them advisedly. May all realise the need to be committed, and thus contribute to the general benefit.

To all, the best.
