Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Monday, October 3, 2016 — 10:00 a.m.

Our dear and great son Kamlesh is an innovator; we happily follow and support him. Each Master has built a "universe", his personality having left an impression. Kamlesh will quite simply consolidate, in a sustainable manner, that which already exists. Time will give the Sahaj Marg Mission an expansion conducive to an unprecedented action. Nothing is ever simple, but what needs to happen for the good cannot help being accomplished — by divine grace. The Mission will evolve as foreseen in order to better adapt itself to the demands of the times; our movement is not fixed, as has been amply demonstrated. Many things will fall into place in the future to meet the growing needs of this extraordinary way. Action, perseverance and surrender are the three strong points of this way of the heart; its unfolding will continue to astonish.

To all, the best that can be, under our very special blessings. Equally special is our full support of our dear Kamlesh.
