Whispers from The Brighter World

Saturday, December 10, 2016 — 10:00 a.m.

Time lends events their due importance. Our Sahaj Marg Mission has a history that will last a very long time, for the good of all. These thousands of messages have not been given in vain; many of our abhyasis are nourished by them daily and derive benefits of which they themselves are not aware of. Nothing in the realm of spirituality is done without good reasons; we give priority to these reasons, you can be sure. Anything concerning our abhyasis attracts our attention. We are happy to see them advancing and integrating themselves better and better into this great unifying movement — one that fosters in each person an opening of the heart that meets our wishes and is amazingly productive. In such a context, it takes time to accept the reality that the heart of the human being holds secrets, a history that characterises each person and truly develops the individual over time.

Mystery is part of life, building it little by little and giving it its true attraction. Who knows the mystery of his or her own life and what it has in store from beginning to end. Sometimes it is better not to know and to discover over time what one's individual karma holds. In this regard, the power of the Spirit is sovereign; surrendering to the Divine is the best way to gain precious time. May all our abhyasis take full advantage of what Sahaj Marg offers them. They are blessed to receive it in their hearts, in accordance with our wishes.

This is how it is.
