Whispers from The Brighter World
A Fourth Revelation

Wednesday, April 12, 2000 - 10:00 a.m.

We are changing your vibration. In doing so, a certain number of changes are taking place in you – slowly – as we have already said, at nature's pace. There is no lightning effect, no bombshell; that does not pertain to the scope of our work. Ours takes place in obscurity, without your possibly realising it. Isn't it the result that matters?

"The transmutation of matter, which always intrigued you, partakes of the divine work which is great. Seeking to further penetrate this mystery is very commendable: nothing is created, everything is renewed, transformed according to the laws of creation. Your own transformation and your evolution are part of this system.

"Different vibrations lead to other levels of consciousness where you have your place now. Do not seek to know more about this; be entirely surrendered to the Divine."
