Whispers from The Brighter World

Thursday, February 23, 2017 — 10:00 a.m.

The world is changing; the Mission is evolving and will be restructured differently in the future — our dear son Kamlesh will give it very productive prospects. It must be innovative while following a thread that will cause it to change course without taking it away from the foundations on which it has been built. Spirituality must assume a prominent place and follow this unprecedented trajectory. In this, India will remain the beacon of the world. Great buildings will be constructed there to bring about a new era, decisive in this objective: maintaining the laws of the past while at the same time bringing spirituality to its highest level, as has long been foreseen. Spirituality is to be redefined according to present-day principles; tomorrow we will resume as planned to help define the current parameters.
