Whispers from The Brighter World

A Fourth Revelation

Thursday, April 13, 2000 - 8:00 a.m.

Today is a happy moment for us. A certain number of planets are on the same harmonic line. The beings populating them will feel regenerated. We are working towards this great achievement that will reach its apotheosis in future times.

"The great architect of the universe has a lot to do. Sometimes troublemaking elements come and bring disorder and we must fix it. All creation is in constant transformation. The wheels of all these mechanisms must remain perfect. There should be no disorder in this balance.

"Think of the boundless greatness of creation, where the infinitely small has its place and plays its part. Each atom is part and parcel of this plan; the whole constitutes the framework. It has its importance, just like a human being or a planet."
