Whispers from The Brighter World

Monday, March 20, 2017 — 10:00 a.m.

This heavenly manna of messages will cover the world, and do so for a very long time. These writings carry a subtle energy and will surely be appreciated more and more.

In the future, our Mission will have a growing place in the world, when spirituality will develop in response to a call that is justified and ever deeper. The times are changing, and minds are opening up to the benefits of an action that is unfolding in this era of spiritual openness — an openness like never before. In this regard, India has always been the beacon of the world, and it will become so more and more — for good reasons that relate to a spiritual approach that is not imposing, yet one that allows important and redeeming aspects to be addressed. To all our brothers and sisters, the best that can be; an important space is being created here for all our abhyasis whose imprint will be deeply etched over time.

All our blessings to all of you.

Babuji Maharaj
