The path of Sahaj Marg is evolving, enabling a growing and necessary expansion. New structures are being set up and will facilitate many aspects of this way of the heart. It has yet to give the best of its capabilities. Everything in its own time; it is necessary to adapt to the needs of the present times.

The high place of Hyderabad will promote a new momentum. Its structures will generate specific vibrations capable of creating the best that can be. That place has been in preparation for a long time, and it will meet all expectations through a cosmic charge capable of promoting an unprecedented ascent. Important sites have appeared on this Earth at the right time, creating certain vibratory emergences, having striking effects. Such is the special feature of this world that awaits many unprecedented changes. Sahaj Marg will be integrated in that plan and will thus reach its apogee. Doesn't everything have its raison d'être?
