Whispers from The Brighter World

Thursday, March 30, 2017 — 10:00 a.m.

Hyderabad will become the 'high place' of Sahaj Marg. It is being built slowly, but its influence will go beyond what is imaginable today. Thus have sites emerged in the world — sites which, centuries later, are still imposing in their greatness and vibratory power. Our Mission too will stand out with places that are quite remarkable in many respects. That which must be done will come about in its own time; the Masters are paying close attention to what the Sahaj Marg Mission produces at all levels. What a journey since Shahjahanpur, where the attention of the Divine created this Mission that enables Sahaj Marg to expand in the world. This Mission was truly awaited. Time shapes beings on their personal journey, and spirituality is the most decisive element in one's life. May all realise this and gain precious time in this incarnation.

Special blessings to all.

Babuji Maharaj
