Whispers from The Brighter World

Thursday, April 6, 2017 — 10:00 a.m.

Each of the Masters up to the present has received what was necessary in order to relay it to the Mission. It is called the way of the heart, wherein a delicate work takes place on the decisive points of the being for a real spiritual advancement. This fact is not commonplace; it results from the collaboration between the Masters of the past who are united to obtain, according to the necessity of present times, a fully effective method. We here can only rejoice. Since the beginning of this action, real progress has been achieved. It constitutes an advancement in this domain — one that is truly necessary, at a time when energies are going in all directions, humanity being so very destabilised by unusual actions that are regrettable for the general good of all. Spirituality, approached properly, is and will remain the true wealth of humanity. May all become aware of this and act accordingly.

Blessings from all the Masters united in constant support of our dearest Kamlesh.
