Whispers from The Brighter World

Saturday, April 8, 2017 — 10:00 a.m.

Every day it is necessary to strengthen oneself in the face of life; what life has in store is not always easy. Following a spiritual path makes it possible to take stock in many circumstances, to orient oneself accordingly and differently. Sahaj Marg opens up perspectives on a life more centred upon this search for a sacred space within. Here, faith is strengthened and real research is supported by a method much more evolved than it appears. Spirituality is a sacred space; is there anyone who truly grasps it? A spiritual Master has this opportunity; does he really measure the effects of this capacity? Nothing is simple in this world, but fervent beings manage to find the way, to fortify themselves before the Eternal in order to acquire the means of deepening, without any limits, their aspiration to the Divine.

Finding one's way, following it with love, is decisive in life. Spirituality provides access to a sacred space where the ultimate goal becomes a reality. It takes many lifetimes to become aware of it; Sahaj Marg is a very precious help, you can be sure. May all be blessed and greatly strengthened in order to attain the best possible.

Special blessings to all.
