Whispers from The Brighter World

Tuesday, April 11, 2017 — 10:00 a.m.

Long is the path of life, where nothing is ever simple. To secure within oneself a space of spiritual life constitutes a very precious asset; it becomes increasingly clear from one lifetime to the next, until it reaches a point necessary for each person's evolution.

Sahaj Marg is not given to this world in vain; it is an access route that is fairly simple but far more effective than it appears. It holds many resources that will unfold in the future. The Hyderabad ashram will be decisive in this advancement, since its many capabilities will prove very constructive both materially and spiritually.

The Great Beings of the past are united through this sacred journey where the essential elements remain active and constructive. Great and beautiful souls are destined to serve this extraordinary way. The future will surprise people with its revelations that concern this very effective spiritual path. Everything is for the best; may the best come about for all, and especially for our dearest son Kamlesh.
