Whispers from The Brighter World

Tuesday, April 18, 2017 — 10:00 a.m.

Many hearts have rejoiced to read us. These writings have formed a magic chain fostering the transmission of the Masters; they will remain the distinctive feature of our way — the way of the heart and the sovereign Spirit, in accordance with the wishes of the Masters. The action of Sahaj Marg will be fully revealed in the future. Everything is called upon to change, to evolve over time, and this for good reasons.

Our way will leave its mark, one that is slightly different from that which exists today; that is to say, it will be able to adapt to the prevailing situations. We want the best for this spiritual way, one that does not yet reveal all its greatness. It is not given to the world in vain; clairvoyant minds are not mistaken about it. It is not easy to highlight all the good reasons for our action which is on the horizon for the general good. Everything is called upon to change; we are preparing these times to come — precursors in many respects — and we want the best for all. Ceaseless blessings to each abhyasi and to those who, being entrusted with a mission, are performing it rightfully and with love.

To all, the best.
