Whispers from The Brighter World
A Fourth Revelation

*Friday, April 14, 2000 - 10:00 a.m.*

*That you take down these messages more or less easily depending on the days, is one thing – your health condition is the culprit – but that you keep having doubts, seems strange to me. If words can deceive, can what you feel inside deceive you? These two aspects form a whole which you cannot deny. Overcome once and for all this negative side. Don't you feel, particularly this morning, your heart dilating under the effect produced by these sentences added one to another? We wanted to make you live this experience so that you are certain of the impact they can have on you.*

*"Why would we come and give you all these messages if they were mere delusion? They are not a 'magic potion', but in a way they materialise the subtle work which is being carried out inside you within the framework of your sadhana."*
