Revered Babuji Maharaj

Whispers from The Brighter World

Sunday, May 21, 2017 — 10:00 a.m.

Our dear Kamlesh inspires this Mission in the right direction. In the future, it will have to meet the demands of the times. Great changes will occur, and it will have to adapt in order to build itself accordingly. Sahaj Marg will increasingly spread across the world according to the needs of the moment.

Human beings aspire to the Divine, yet they must become aware of it; the ambient negativity diverts them from the "true way" — that of the heart, in terms of its spiritual and subtle action. Humanity is evolving very slowly; nevertheless, it will reach a very high level, you can be sure. There will be surprises in the new era, and a transition period will be necessary in order to establish that which has long been foreseen. We ensure that the best happens for this Mission, which is so dear to us, and that it reaches the height of its action. Our dear son is working accordingly, under our blessings.
