Whispers from The Brighter World

Monday, May 22, 2017 — 10:00 a.m.

These messages carry a subtle energy; they win over people's hearts, each in its own manner, shall we say. The heart awaits the message capable of enlightening it, of bringing into it a deep aspiration for the Divine. It takes such a long time, so many incarnations for this subtle energy to reach the sensitive points. Human evolution passes through different stages; each person is doing his or her best and progressing at the opportune time.

The results produced by this Sahaj Marg Mission are very satisfactory; so many hearts have found the way that leads to real advancement, one that is capable of transforming the human being in this very special asset that is spirituality. On this point, years have greatly enriched all our abhyasis — it is so delightful to witness this.

To all, faith and courage, surrender and fervour, in this beautiful way of the heart.
