Whispers from The Brighter World

Monday, November 19, 2012 — 10:00 a.m.

Transcend this world and immerse yourself in us, in this protected space where only peace and love influence your heart. You are not an ordinary medium, we emphasise this once again; there are more and more mediums in the Mission, but the chosen ones are few and we select them based on certain criteria. May all our aspirants understand the importance of these messages. Their Master has resolved to make them known and has thus shown, once again, his great wisdom. It takes time for humans to understand certain basics; the ego remains, in so many circumstances, a bad counsellor.

Let us go beyond all these human weaknesses. Delight in the Divine, this sublime energy that allows you to transcend matter and nourish yourself from the divine source. There lie peace and true joy, far from any surrounding negativity. Forget those who are irritating or bitter; see only what is beautiful, that which transports you away from this world into a place where your heart is united with ours, together in this alliance of Masters who are so attentive to faithful hearts. Purity exists; a spiritual journey lifts up souls who are willing to take a step by leaving behind the burdens that hinder them. A genuine commitment allows them to achieve the goal. Blessed are the pure in heart, they shall see the light. Beyond rituals of all kinds, this sublime allegiance to the incarnate Master opens the doors to an exclusive domain. Purity of heart and surrender — these are the essentials.

We cannot say it enough: it is in the heart that wonder unfolds. Nothing escapes us at our level, and it is high time our aspirants became aware of it.

That is how it is.
