Whispers from The Brighter World

Lalaji Maharaj's Mahasamadhi Day

These very special days should never be forgotten in our Mission. They are so much more important than you can imagine. We ask all of our abhyasis to devote a moment, a thought, to the Great Being Lalaji, the initiator of this beautiful and great way of Sahaj Marg. Each of the Masters up to now has added a stone to the sacred edifice of Sahaj Marg, which will assert itself more and more in the future — for good reasons, including the good of many souls who are calling for and looking for a spiritual path that suits them.

The Mission is adapting to current times, to the unsettledness of a world that is in grave turmoil and so much in need of serenity in order to advance on this vital journey of life. All our brothers and sisters who are united in a state of remembrance are particularly blessed and strengthened in this aspect of their journey.

Very special blessings to all.
