Whispers from The Brighter World
A Sixth Revelation

Saturday, February 7, 2009 – 1:30 a.m.

My son, this great enlightened Being, has found the words capable of striking people's minds with his text intended for our abhyasis in which he has summarised very well the spirit of the messages. Their thorough study will give rise to reflection. An exegesis of these texts will be made in the future; it will be long and full of discoveries, supported by a reality specific to future times. With his remarks, my son creates a desired impact on people's minds by opening up for them constructive vistas on the subject. Happy are those who will follow him on the path of discovery of this teaching. My daughter, you have every reason to feel happy in reading the remarks of your Master. These writings are the work of your fervent heart, entirely devoted to our cause.

Our Mission has yet to discover the manna of a teaching of this kind. It is not negligible, and your Master, in his great wisdom, has recognised the beauty of it and the higher inspiration from which he benefits. Each series has its own style. 'The Quintessence of the Spirit' will remain, among its kind, an anthology celebrating divine love, in terms of how it can be deeply felt.

My son has well understood what the whole of this work can bring to our way. He has managed to express this with soundness and to sensitise our brothers and sisters to the contents.

The French edition, in the original language, is essential, being rich and providing all the nuances that characterise that language. It will have to remain a reference - this is to be borne in mind.

These books will have to be brought within everyone's reach, according to the economic status of the greatest number, and published in a suitable form.

The kick off for this new series is given by your Master, with all the style and spirit which befit an event of this kind. The future will justify these remarks.

May all be blessed beyond their hopes, grateful towards their Master for overcoming the taboos and acting as the greatest must do to serve a just cause.

We bless this very dear son, the one Chosen by our united hearts. May he still find, for a longer time, the strength to act with soundness and perceptiveness!
