Whispers from The Brighter World
A Fourth Revelation

This article, as a whole, is right. Being a medium is a gift, an inner ability and not a pathologic condition, as certain ignorant doctors tend to propound. This state is not easy to live because of the over-sensitivity it develops.

"To show their worth, these beings need a favourable environment. This is what we are trying to do as far as you are concerned.

"True mediums are people with a mission. They made this choice to serve a cause. Your cause is Sahaj Marg, which holds a big place in your heart. It is unfortunate that people's minds are not open enough to this practice [of channeling] that they understand poorly, because they do not have, themselves, this capability.

"You are doing what you have come for; that is all that matters and you are understood and appreciated by beings that are dear to you.

"You will leave a nice crop with all these messages given and received with love."
