Whispers from The Brighter World

Friday, July 20, 2012 — 10:00 a.m.

Life goes on, our abhyasis move forward and the Mission grows; is this not a satisfactory result as this highly anticipated birth anniversary approaches? Many of our brothers and sisters are preparing for the event according to our wishes. Interiorisation and fervour generate a subtle and redeeming energy in these particular circumstances in which a collective awareness takes place. A birth anniversary of one of the Masters of the Mission is a kind of sacred step; it uplifts the aspirant beyond his or her condition. Devoting one's full attention to these days is a sign of wisdom; we wish that the greatest number of people attain it. The way of Sahaj Marg is winning over hearts; it is growing according to divine plans. The world of the future will need reliable guidance; life will become harder, and bewildered humans will turn to the call of the Divine — as has always been the case on this Earth — excepting that now, the truth will become obvious to the greatest number of people. Many upheavals and trials will lead people to more wisdom and reason: they will become aware of its reality at the level of the spirit. To progress spiritually is the best way to understand life; a life that precedes and prepares the future life of the subtle being. Following a reliable spiritual path is a good start, going as far as possible, cleaning up one's life at all levels and acting accordingly so as not to lose time — that is wisdom itself, and we strongly encourage it with our blessings.
