Whispers from The Brighter World

Thursday, September 6, 2012 — 9:00 a.m.

This moment between your heart and ours is unique. We have expressed ourselves here for so many years, and thousands of messages are the fruit of these contacts. The process is nothing new; all sacred texts since time immemorial have been inspired in this way. It is important to emphasise it again: the great beings who have left their mark in this world have always been spiritually guided in this manner. Our Mission is no exception. At this level, it is a rare blessing and the hallmark of great movements here below that are called upon to influence their times here on Earth. Therefore, let us rejoice in the benefit of such a privilege, one that is valuable in every respect. The integration of these messages into our teachings is making its way into hearts, and for that we are happy.

The times ahead will not be easy. Our abhyasis will have this important refuge: faith in what lies beyond, where divine power is omnipresent, manifesting here on Earth through the action of the living Master. This is not negligible. Being incarnate, his action is increased tenfold in many circumstances.

Our way benefits from this major asset, and its prerogatives are thus reinforced. Blessed are those who are advancing on this path, that of a spiritual commitment conducive to their evolution. The ultimate goal lies within view of all our brothers and sisters. It is up to them — according to their perseverance — to go forward and always further, carried by the action of their Master.

To all of them, the best.
